# Advanced Mac Cleaner Is It Safe

ComputersSoftware & AppsAdvanced Mac Cleaner Review – Best Mac Computer Cleaning Software?Advanced Mac Cleaner Review.. Dec 17, 2015 Advanced Mac Cleaner is crap software frequently found installed alongside adware (aka, ad-injection malware).. Advanced Mac Cleaner installed itself on my computer and scanned everything For your vault to be at risk your machine would need to be sufficiently compromised such that nothing was safe at all as the bad application would need to be able to defeat all the operating system level protection in terms of memory partitioning and so on.. It should be removed Unfortunately, it worms its way deeply into the system, so removal isn't trivial.
